01 — MARKET OPPORTUNITY

Why Google Ads wins for painters

When a homeowner in Cincinnati searches "house painter near me," they are ready to hire — not browsing. Google Ads puts Precision Paint Pros in front of that intent the moment it exists.

AVG. JOB VALUE \$3,200 Residential repaint	TARGET CPL \$55 Cost per estimate lead	EST. CLOSE RATE 35% Estimate → booked job	TARGET ROAS 20× Ad spend to revenue
---	---	--	--

FUNNEL AT A GLANCE — \$1,600/MO STARTING BUDGET			
STAGE	MONTHLY EST.	RATE	OUTPUT
Impressions	18,000	—	Local search reach
Clicks	540	3% CTR	Site visitors
Estimate Requests	27	5% CVR	Qualified leads
Booked Jobs	9–10	35% close	Paying customers
Est. Revenue	\$29,000–33,000	—	From \$1,600 spend

02 — CAMPAIGN ARCHITECTURE

How the account is built

Each campaign targets one service. This prevents keyword cannibalization and lets budget flow to the highest-converting service lines independently.

CAMPAIGN MAP				
CAMPAIGN	TYPE	PRIORITY	BUDGET/MO	GOAL
1 • Interior Painting	Search	TIER 1	\$500	Estimate forms + calls
2 • Exterior Painting	Search	TIER 1	\$400	Estimate forms + calls
3 • Cabinet Painting	Search	TIER 2	\$250	High-ticket job sourcing
4 • Commercial Painting	Search	TIER 2	\$200	B2B estimate requests
5 • Competitor Conquest	Search	TIER 3	\$100	Steal consideration from rivals
6 • Local Services Ads	LSA	ALWAYS ON	\$150	Google Guaranteed badge, calls
Total			\$1,600/mo	Starting budget

SCALE TRIGGER

Once CPL drops below \$50 for two consecutive weeks on any Tier 1 campaign, increase that campaign's budget by 30%. Do not scale until conversion tracking is confirmed accurate.

03 — KEYWORD STRATEGY

What we bid on

Exact match captures ready-to-hire searches. Phrase match broadens reach while staying relevant. Broad match is off until Month 2 when conversion data exists.

05 — TARGETING SETUP

Who sees the ads

GEOGRAPHIC TARGETING

- Primary radius: 15-mile service area around Cincinnati
- Target people **IN or regularly in** the location (not "searching about")
- +20% bid adjustment** for ZIP codes with household income top 30%
- Exclude areas outside service range — prevents unqualified leads

AUDIENCE LAYERS (OBSERVATION)

- Homeowners (Google in-market segment)
- Home improvement & décor enthusiasts
- Recently moved / moving (life event)
- HHI \$75k+ — observe, then bid up if CPA is lower

DEVICE BIDS

DEVICE	ADJ.
Mobile	+20%
Desktop	Base
Tablet	-10%

DAY & HOUR

TIME	ADJ.
Mon-Fri 7am-7pm	Base
Sat 8am-2pm	+10%
Nights + Sun	-25%

BID STRATEGY

- Month 1-2: Maximize Clicks
- Month 3+: Target CPA (after 30 conversions)
- CPA target: \$50-65/lead

06 — AD ASSETS (EXTENSIONS)

Make the ad bigger & more clickable

Assets add real estate in the search results and push down competitors. All are free — skipping them leaves performance on the table.

6/11

ASSET CHECKLIST		
ASSET TYPE	CONTENT	PRIORITY
Sitelinks	Free Estimate · Our Work · Services · About Us	MUST HAVE
Callouts	Licensed & Insured · Free Estimates · 5-Star Rated · Locally Owned · Satisfaction Guaranteed	MUST HAVE
Call Asset	(513) 555-0148 — show during business hours only	MUST HAVE
Location Asset	Link Google Business Profile — shows address, map pin, distance	MUST HAVE
Structured Snippets	Services: Interior Painting, Exterior Painting, Cabinet Painting, Drywall Repair, Deck Staining	WEEK 1
Promotion Asset	"\$100 off your first paint job — mention this ad" (seasonal)	SEASONAL
Image Assets	Before/after job photos — clean results shots. 1200×628 + 1:1 square formats.	MONTH 2

07 — CONVERSION TRACKING

What counts as a win

Without accurate conversion tracking, the algorithm can't optimize and you can't prove ROI. Set these up before spending a dollar.

CONVERSION ACTIONS			
ACTION	HOW TO TRACK	VALUE	PRIORITY
Estimate Form Submit	Thank-you page URL or GTM trigger	\$55	PRIMARY
Phone Call (60 sec+)	Google forwarding number on site + call asset	\$55	PRIMARY
Click-to-Call (mobile)	Auto-tracked via call asset	\$20	SECONDARY
Chat / Message Start	GTM event if chat widget is added	\$15	OPTIONAL

PRE-LAUNCH CHECKLIST — DO NOT RUN ADS UNTIL ALL GREEN

Google Tag installed on ALL pages (use GTM) · Form submission fires a conversion event (test in Tag Assistant) · Google forwarding number rings through correctly · Conversion actions show "Recording conversions" in Google Ads · GA4 imported as secondary conversion source

08 — LOCAL SERVICES ADS

The Google Guaranteed badge

LSA appears above standard search ads. You pay per lead — not per click — and display the Google Guaranteed shield. Highest trust signal in local search.

HOW TO QUALIFY

- Submit business license and proof of insurance through Google's verification flow
- Pass background check (Google uses Pinkerton)
- Connect Google Business Profile (min. 3 reviews to show)
- Set service area and job categories in LSA dashboard

PERFORMANCE EXPECTATIONS

METRIC	BENCHMARK
Cost per lead	\$25–45
Monthly leads	4–8 on \$150 budget
Lead type	Phone calls, messages
Bad leads	Dispute for credit within 30 days

09 — LANDING PAGE REQUIREMENTS

Where the click goes

A great ad pointing to a weak page wastes the entire budget. The new website (currently in design) should be built with these requirements from day one.

MUST-HAVES FOR THE NEW SITE		
ELEMENT	REQUIREMENT	WHY
Page speed	Under 2.5s on mobile	Slow pages lower Quality Score → higher CPC
Headline match	Ad language echoed on landing page	Message match increases CVR by 30-50%
Estimate form	Above the fold, 3 fields max (Name, Phone, Service)	Every extra field drops conversion ~10%
Click-to-call	Tappable phone number, sticky header on mobile	Most painting leads call, not fill forms
Social proof	3-5 before/after photos + Google review count visible	Removes hesitation — let the finish do the talking
Trust badges	Licensed · Insured · Satisfaction Guaranteed	Mirrors ad callouts = trust continuity
Service pages	Separate pages for interior, exterior, cabinet painting	Allows exact message match per campaign

10 — 90-DAY LAUNCH ROADMAP

How we get there

1

Week 1-2 • Foundation

Set up Google Ads account · Install Google Tag Manager + conversion tracking · Link Google Business Profile · Apply for LSA verification · Build campaign structure + ad groups · Write all RSA headlines and descriptions · Add all assets/extensions · Set up negative keyword lists

2

Week 3-4 • Launch

Go live with Tier 1 campaigns (Interior + Exterior) · Monitor search term reports daily · Add negatives aggressively · Verify call tracking is recording · Confirm form submissions fire conversions · Start LSA if verification complete

3

Month 2 • Expand + Optimize

Launch Tier 2 campaigns (Cabinet + Commercial) · Review RSA asset performance — pause underperformers · Add converting search terms as exact match keywords · Bid up high-converting ZIP codes · Add before/after image assets · Check Quality Score components; fix low Expected CTR scores

4

Month 3 • Scale

Switch to Target CPA bidding if 30+ conversions recorded · Launch Competitor Conquest campaign · A/B test landing page CTA variants · Review auction insight data — identify top Cincinnati competitors · Evaluate budget increases where CPL < \$50 · Monthly report delivered to client

11 — KPIS & REPORTING

How we measure success

SUCCESS METRICS			
METRIC	MONTH 1 TARGET	MONTH 3 TARGET	FLAG IF...
Cost Per Lead (CPL)	\$60-75	\$40-55	CPL > \$90 two weeks in a row
Click-Through Rate	3%+	5%+	CTR < 2% — ad copy issue
Conversion Rate	3-4%	5-7%	CVR < 2% — landing page issue
Impression Share	40%+	60%+	Lost IS (budget) > 30%
Quality Score	6+	7-9	QS < 5 — fix ad relevance or LP
Estimate Leads/mo	15+	25-35	Below 10 — diagnose budget or targeting
Booked Jobs from Ads	4-6	9-12	Close rate < 20% — sales review

MONTHLY REPORTING CADENCE

Wave Creative House delivers a one-page performance report the first Monday of each month — spend vs. budget · CPL vs. target · leads by campaign · top-converting keywords · recommended actions for the coming month.
